Frial of the Challenge Safe.

We, the undersigned, clizens of this City, having aded as a Committee on the trial of one of the Childengs Safes manufactured by Blombach & Wagner, of his clify, persenday alternoon, certify by this, that said safe was placed on four anall brick layers, twenty inches from the ground, surrounded by a circular wait about these feet distant from the Safe, and reaching more than a foot above it, and covered from all sites as well as from one and bottom by wearly than thing the whole space between the Safe and the wait and some way upwards, with just four cords of wood, who kning to squarity of targentine which had been poured on the wood-pile, the whole was in a short time all in a blue. The fames then continued raging for an hour and a half around, above and below the Safe, melting of a solid brass knowl and beligh of the safe whole was in a short time all in a baside. The fames then continued raging for an hour and a half around, above and below the Safe, melting of a solid brass knowl of an tarpentine which had been poured on the wood-pills, the whole was in a short time all in a blaze. The flames them continued raging for on hour and a half around, above and below the Sale, melting of a solid brass knob of an inch and seren-eighths in thickness, and bringing the Sale to a red-hot heat, when we, the Committee, considering this a fully satisfactory trial, and one that a safe is unusually subjected to in case of conflagration, contributed to let as enemie play on it. This was quickly brought in exception, the stream of water being directed ragainst the Sale, and later it had thus been coded off and the flames extinguished, to admit of approach, it was tried to be opened, which after some little time was effected, when in our prosence the Sale was opened, and to the attendshment of all persons present, the articles deposited inside, including \$15 tr bank notes belonging to Mr. Illaley, were found uninjured by free, and only some of them slightly demped by the steam created by extinguishing the firmes. Fully continued that the test said Sale was subjected to was a fully satisfactory one, and machaevers; thun any very before given in this city, we take the opportunity of recommending the Challenge Sales of Hornbach & Wagner of lawloom ay stand in need of a case goard for their books; pepers and other valuables, as a perfect security against all the depredictions of fire.
